

graduation, Saund worked as a farmer but was also a local activist. He spent years pushing to end naturalization restrictions for Indians living in the United States.

In 1950, Saund made a bold decision and entered local government. In 1955, Saund decided to run for an open seat in Congress—and won. Representing the Inland Empire from 1956 to 1963, Congressman Saund served on the Foreign Affairs and Interior Committees. Unfortunately, his promising career as a Member of this distinguished body came to an abrupt end when he suffered a severe stroke in May 1962.

Congressman Saund truly lived the American Dream: an immigrant who came to America with dreams and aspirations of making a difference for himself and for future generations. As the current Riverside Representative, I honor his impact and legacy on all Americans.

#### OBAMACARE AND IRS

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Mr. Speaker, the IRS admitted to targeting conservative groups with extra scrutiny, demanding donor lists, meeting minutes, personal member information, and even Facebook activity. The Justice Department was caught essentially spying on the Associated Press. And the White House continues to twist itself in knots explaining why it misled the American public in the aftermath of Benghazi.

The administration's apologists are in a panic. They claim the President is not responsible for any of this wrongdoing. The President, who made a career touting government as the solution to most every problem, now solicits our understanding. It seems the leviathan is rather unwieldy and difficult to manage.

This is my shocked face.

These scandals are byproducts of government too big for its britches and proof that the IRS should not be given more power to manage our health care.

House Republicans are committed to a smarter, accountable government that works for the people and safeguards liberty against tyranny and bureaucratic incompetence. That starts with repealing ObamaCare.

#### IN OPPOSITION TO 2013 FARM BILL CUTS TO SNAP

(Ms. CLARKE asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. CLARKE. Mr. Speaker, today I rise to voice my opposition to the proposed \$20 billion in cuts to the Supplemental Nutrition Assistance Program, also known as the SNAP program. This program currently provides food assistance to 47 million Americans who oth-

erwise would not have access to one of the most basic human necessities—food.

Two million low-income Americans—most of whom are working families with children, senior citizens, and people with disabilities—will lose their food assistance as a result of these cuts. Of that number, 200,000 children would also lose access to their free school meals because their eligibility for these meals is tied to their receipt of SNAP.

Let me ask my Republican colleagues: How often do your children have to learn on empty stomachs or come home and study on empty stomachs? I dare say not often, if ever. But that is what the Republicans are proposing that we do to close to a quarter of a million children. They are asking them not only to learn on empty stomachs, but also to come home and study on empty stomachs. This cannot stand.

#### EFFECTS OF SEQUESTRATION

(Mr. VALADAO asked and was given permission to address the House for 1 minute.)

Mr. VALADAO. Mr. Speaker, this month, the United States Bureau of Land Management indefinitely canceled all oil and natural gas leases in California. This includes 1,278 acres of prime oil and natural gas land in Kern and Fresno Counties located in my district—California 21. This land is part of the Monterey shale formation located in the Central Valley.

The Monterey shale contains two-thirds of our country's shale oil reserves, the equivalent of 15.4 billion barrels of oil. If tapped, it could generate half a million jobs and generate \$4.5 billion in revenue. This would have a significant impact on my district, which has faced chronic unemployment for years. However, citing sequestration, BLM is suspending all future lease sales in California. This decision was made despite the fact that these leases provide significant revenue for the Federal Government.

This is just another example of the administration using sequestration to further their environmental policy agenda at the expense of American families. BLM's efforts to prevent energy development are depriving my constituents of quality jobs and increasing energy prices for hardworking families across the country. It is unacceptable that BLM is halting lease auctions in regions that have been used for oil and gas development for over a century.

#### SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM

(Ms. MENG asked and was given permission to address the House for 1 minute.)

Ms. MENG. As I watch the farm bills move forward in the House and Senate, I am very saddened at the disregard for my most vulnerable constituents—our

fellow Americans. Cutting another of our Nation's safety nets will only serve to further the suffering of disadvantaged children and senior citizens across the country.

Many of the recipients in my district who rely on SNAP to lift their families out of poverty and combat what would otherwise be certain malnutrition of their children, for many of these families this is the only form of income assistance they receive. Eighty percent of them fall below the poverty line.

Reducing benefits would have a terrible effect on millions of Americans. In addition to the Recovery Act's boost of funds ending, further cuts are not warranted.

Although the recipients of SNAP don't have an association to represent them here in Washington, I have come to the floor today to let them know that they are not being forgotten in this fight and that many Representatives will continue to battle on their behalf.

#### OBAMACARE: UNAFFORDABLE LACK OF CARE ACT

(Mr. GIBBS asked and was given permission to address the House for 1 minute.)

Mr. GIBBS. Mr. Speaker, it is becoming clearer by the day that ObamaCare is detrimental to all Americans. The Unaffordable Lack of Care Act will cost almost \$2 trillion, raise taxes by \$1.1 trillion, and cut Medicare by \$716 billion.

Despite the President's statement that premiums would decrease by \$2,500 under ObamaCare, the average family premium has grown over \$3,000 and climbing. Over 30 studies have concluded that the law will make health care premiums more unaffordable for Americans. Furthermore, young adults could see their premiums increase on an average between 145 and 189 percent next year.

Even Democrats are beginning to jump off the ObamaCare bandwagon. The architect of the bill recently referred to the law as a "train wreck," and HHS Secretary Kathleen Sebelius stated she did not anticipate how complicated it would be to implement the bill.

In light of the recent news that the IRS was deliberately targeting Americans, can we really trust them to be in charge of our health care?

The bottom line is the President's health care law is a bad one. Our job creators are citing the unknowns surrounding it as reasons for planned layoffs and why they cannot expand their businesses.

If the Senate really wants to pass a jobs bill, then they should listen to the American people and support repeal and replace.

#### MILITARY JUSTICE IMPROVEMENT ACT

(Ms. GABBARD asked and was given permission to address the House for 1 minute.)
